

## Construction Update - IMPORTANT NOTICE

Work on the drilled shaft between Hood Ave and I-5 during the weekend of March 26-27 did not go as planned. The drilling crews encountered issues. After the delay in construction last weekend (4/16), the construction crew is ready to move forward with the work this weekend. If all goes well, construction will be put on hold Sunday, April 24<sup>th</sup> for the holiday. If weather or unforeseen conditions cause delays, work may need to take place on Sunday. The City of Portland has decided to move forward with the work this weekend to avoid further delays to the schedule and to reduce the costs associated with the necessary closure of exit 299A.

**We apologize for any inconvenience caused by construction over the holiday weekend.**

**Friday, 4/22 at 8 pm  
to  
Monday, 4/25 at 5 am**

Over the weekend, work is **expected to cause severe vibrations and noise**, especially within a one-block radius of the work site. Nearby residents are advised to **remove fragile and valuable items from walls and shelves to prevent damage.**

**Exit 299A, the Oregon 43/Macadam Avenue/Lake Oswego exit from the Marquam Bridge, will be closed all weekend** to provide a safe work zone for construction activities and minimize traffic impacts and delays. The far left lane of SW Hood Avenue will be closed for this work.

**The Portland Aerial Tram will be open.**

**Night time work  
Monday, 4/25 to  
Friday, 4/29**

The work crews will be active at night throughout the week. **Vibrations may occur between 8:00 and 11:00 pm.** Work causing vibration is expected to be completed in the next two weeks, only during these night time hours.

**Exit 299A will be closed at night** to finish this work.

**Thank you for your patience and understanding** while we complete this work. If you have any questions or concerns, please contact us using the numbers below.

(503) 872-4732 - To listen to a recorded **message about construction updates**

(503) 736-4110 - To contact an on-site staff member for **questions or complaints about noise**

(503) 823-7211 - Please contact Jean Senechal Biggs, Project Manager, if you have **other questions**

(503) 823-7350 - Contact the **City's Noise Control Hotline** for further assistance with noise issues
